

Sync PBs/SBs with Tilastopaja

Modified on: Mon, 1 Jul, 2024 at 12:44 PM

If athletes have a profile on the Tilastopaja database platform and their Tilastopaja ID is added to their Roster profile (an athlete has a Tilastopaja ID when you see a **TS** abbreviation on the start list next to their name), you can use the following option to update the athletes' statistics (date of birth, PB, SB).

High Jump · Senior · Final (6)

1. Add athletes to the start lists.

2. Click on the **Jobs** link in the left-hand side menu.

3. Click on the **Update** button.

You can select one of two options:

- **Verified records only** - this action will use records from Tilastopaja and records added to athletes' profiles by Roster staff.
- **Verified + non-verified records** - this action will use records from Tilastopaja, records added by Roster members, records added by other users of the Roster platform (e.g. other meet/meeting organizers/organisers), and records added by athletes if they have their profiles in the registration platform.

By clicking the **Clear** button, you can clear all initial PBs/SBs from all start lists (of not finished events) of your meet/meeting. Use it and then update records by verified records only if you don't want to use records added by athletes (registrants).

Please note: You cannot restore cleared records you added, e.g. by importing a CSV file.

Updating and clearing initial PBs/SBs will not apply to events or groups marked as FINISHED.

Records added by athletes and organizers/organisers (other platform users) are marked by a yellow icon on the start list and athletes' profiles (Source: Registrant, Organizer/Organiser, Start list and Result).

4. Go back to the start list. All PBs/SBs should be updated on the start list and the athletes' profiles.

Please note: only Roster Athletics staff can add a Tilastopaja ID to the athlete's profile. Send us a message if you see an athlete that needs a review: <https://support.rosterathletics.com/support/tickets/new> (<https://support.rosterathletics.com/support/tickets/new>).
